

## Summary

---

Web worker for 3 years. I have experience with designing, email blasts, video editing and developing. Some of my best work was done on email blasts and splash pages. I like to work at a company that isn't afraid to let me grow. A company that will help me and give me time to learn and get better. A company that can challenge and will understand when I need help, or I don't understand a thing and gives me the time to learn that thing. Working is something I would love to do, and I would like to do it more.

## Programs

---

CSS/3  
JQuery  
HTML/5  
Wordpress

Campaign Monitor  
Microsoft Suites  
Final Cut Pro

Adobe Audition  
Adobe Premiere  
Adobe Photoshop  
Adobe Dreamweaver

---

## Experience

### Howard Miller Associates 04/2012 - 05/2013

This was my very first position in the media field. I am very appreciative to everyone I worked with and the experience that was left with me. The reason I was released from this position is because of Creative Differences. We had different visions for a great amount of the projects. When I worked at Howard Miller Associates I was responsible for creating email blasts, edit together videos, and build splash pages using HTML/5 and CSS/3.

### MTV Networks 01/2012 - 03/2012

This was a Desktop Support Internship. The internship ended and I graduated from college and I was not able to do another term of the internship. I appreciate the chance to intern at MTV also. During this job, I was responsible for imaging and setting up phones and computers for some of the MTVN executives. I have experience setting up iPhones, Androids, Window Phones and also Blackberries. I also have experience working on MAC and Windows machines.

## Education

---

Bachelors of Sciences in Web Design & Interactive Media  
01/2009 - 03/2012
